Oct. 12, 1856—

One of the most prevalent, and at the same time troublesome and painful diseases that afflict the human frame, is the Fever and Ague. For a long time past, the medical profession have been laboring to find some specific for its permanent cure; but until recently, have been unable to do so.

Dr. J. R. Moxon, an experienced and celebrated physician, has succeeded in furnishing the public with a valuable preparation for the cure of Fever and Ague. The steady and increasing demand lately made for the "Bitters," and the universal success attending its use, have made it a reputation unassisted by any species of the kind. For the cure of the Fever and Ague, Dr. Moxon's celebrated Stomach Bitters must and should claim a preference over any other preparation extant.
